Objective

Enthusiastic and detail-oriented Computer Science and Business Systems student with NAT N4 certification in Japanese, actively seeking Japan-related roles such as Software Developer, Cybersecurity Analyst, or other IT positions aligned with my skills. Passionate about securing digital infrastructure, building scalable systems, and leveraging my Japanese language ability to contribute to international projects, especially Japan-based initiatives.

Education

- **B.Tech - COMPUTER SCIENCE AND BUSINESS SYSTEMS** 2022 - 2026
  K.RAMAKRISHNAN COLLEGE OF ENGINEERING
  88.2%
- **HIGHER SECONDARY EDUCATION** 2021 - 2022
  SRI BALAVIDHYA MANDIR MATRIC.HR.SEC.SCHOOL
  93.83%

Experience

- **Florence Academy** -
  JAPANESE EDUCATOR
  - I work as a Japanese Educator at Florence Academy, Thrissur, where I teach Japanese language to beginners and intermediate learners.
  - I help students understand Japanese grammar, vocabulary, and daily conversation in a simple and clear manner.
  - I prepare students for JLPT exams by providing structured lessons and regular practice.
  - I use interactive teaching methods, including real-life examples and speaking activities, to improve student confidence.
  - I support students in developing listening, speaking, reading, and writing skills for academic and career growth.

Projects

- **Web Development**
  - Tech Stack: HTML, CSS, PHP, MySQL
  - Role: Full-stack developer
  - Designed a dynamic platform for event creation and registration
  - Learned end-to-end workflow and database integration
- **Digital Marketing**
  -Tools Used: Canva, Meta Ads Manager, Google Analytics, Excel
  -Role: Digital Marketer
  -Created platform-specific content (reels, carousels, stories) to enhance brand visibility and audience engagement
  -Designed and followed a content calendar aligned with customer needs and campaign goals
  -Strategized ad creatives and assisted in campaign execution across social media platforms
  -Analyzed reach and engagement data to optimize content strategy and improve digital presence

Achievements & Awards

- Served as a Coordinator for a Technical Symposium, demonstrating leadership, planning, and execution skills.
- Participated in and attended multiple National-level Coding and Problem-Solving Workshops, enhancing technical competencies.
- Winner in an Inter-collegiate Public Speaking Competition, showcasing strong communication and presentation abilities.

Skills

- C# Programming

- Problem solving
- HTML
- CSS
- Leadership
- .Net Fundamentals
- Java Programming

Languages

- Tamil – Native proficiency
- English – Full professional proficiency
- Japanese – Elementary proficiency (NAT-Test Level N4 certified)

Interests

- Deeply interested in Cybersecurity, with a focus on ethical hacking, vulnerability assessment, and network protection.
- Passionate about Data Analytics and leveraging data-driven insights to enhance business decision-making.
- Keen interest in software development, particularly in full-stack web applications and automation tools.
- Enthusiastic about international collaboration, especially leveraging Japanese language skills in cross-cultural tech projects.

Certifications

- Achieved Japanese Language NAT-Test Level N4 (National Level) demonstrating elementary proficiency in reading and listening.
- Earned AWS Certified Cloud Practitioner credential from Amazon Web Services, validating foundational knowledge of cloud computing
- Successfully finished "Machine Learning for All" certification offered by the University of London via Coursera, covering ML concepts and real-world applications.
- Completed "Python for Data Science" course by IBM on Coursera, gaining hands-on experience with data manipulation and analysis.
- Received Internship Certification in Web Development from CodeBind Technologies, involving live project exposure and development tools.
